

DEGREE AUDIT SYSTEM

Student academic progress toward meeting graduation requirements is recorded in the Degree Works online audit system. Students should review their audit in Degree Works prior to an academic advisement meeting. Audit sheets can be viewed by logging in to **Degree Works**. Students should inform their academic advisers of any necessary corrections as soon as possible or consult advisers with any audit sheet questions.

Students should review Degree Works regularly to ensure they are enrolled in courses that will fulfill degree requirements. Only courses that fulfill degree requirements are eligible for federal and/or state financial aid, including loans.
