

CREATIVE EDUCATION: INNOVATIVE LEARNING, THINKING AND PROBLEM SOLVING (MICROCREDENTIAL)

MCCE

Creativity and Change Leadership Department

Chase Hall 248, (716) 878-6223

creativity.buffalostate.edu/ (<http://creativity.buffalostate.edu/>)

This micro-credential focuses on providing theoretical development and practical utilization of the latest creativity studies skills and techniques to educational personnel globally in Pk-12 schools, higher education as well as trainers and educational consultants interested in innovative educational practices. The four creativity courses provide participating educators with focused, advanced development in creativity studies and classroom theory, practice, and application of creative learning. Some of the courses completed as part of the micro-credential can be applied towards the SUNY Graduate Certificate (18 credits) in Creativity and Change Leadership and all of the courses are applicable to the Master of Science in Creativity and Change Leadership (33 credits).
