Buffalo State's Sponsored International Programs office supports students, faculty, and staff in seeking funding, applying to, and participating in international research opportunities, mainly the Fulbright and the Rhodes Scholar programs. To date, 17 Buffalo State faculty from a wide range of disciplines have been selected to participate in the Fulbright Program. The ultimate promise of the Fulbright Program is to increase mutual understanding between the people of the United States and people around the world. Buffalo State proudly plays a part in this process. The Rhodes Scholarships are the oldest and most celebrated international fellowship awards in the world, with the program annually selecting 32 young students from the United States. These Rhodes Scholars are chosen for their outstanding scholarly achievements, as well as for their character, commitment to others and to the common good, and for their potential for leadership in whatever domains their careers may lead.

The International Education Office provides a variety of programs to accommodate the differing needs of Buffalo State Students.

Faculty-led Programs: Faculty-led programs are credit-bearing study abroad experiences that are developed and led by Buffalo State faculty and/or staff. These programs deliver specific Buffalo State courses and are completed partially or entirely abroad, tending to include time abroad from one to six weeks.

International Exchange programs: International Exchange programs allow Buffalo State students to study for a semester or academic year at one of many partner institutions abroad. Participants take courses with local students at the host institution on a space available basis. Buffalo State students continue to pay Buffalo State full-time tuition and fee rates as they normally would according to their residency.

Study Abroad programs: Students participating in study abroad programs do not exchange places with students from partner universities and therefore pay tuition and fees at host institution rates. If a student desires to study at an exchange partners institution and all the spaces have been filled, the student will still be able to attend the university as a study abroad participant.

National Student Exchange (NSE): NSE provides accessible collegiate study away to undergraduate students at member colleges and universities in the United States as well as Canada, Guam, Puerto Rico, and Virgin Islands. Students can take classes not available at Buffalo State, experience different geographic and cultural settings, investigate potential graduate schools, make connections in a potential job market, and much more.

State University of New York (SUNY) programs: Students unable to find a program offered through Buffalo State that meets their academic needs are eligible to participate in a program offered through another SUNY institution.
