

IMMUNIZATION REQUIREMENT

Immunization Compliance

All students must be in compliance with New York State law regarding immunizations to be able to register for classes. The health center provides measles, mumps, and rubella immunizations at no charge for students who need vaccinations. New York State Public Law and Buffalo State College also require all students enrolled to complete and return the Meningitis Information Response Form. The meningitis form and the New Student Health Form are available at <https://weigel.buffalostate.edu/forms> (<https://weigel.buffalostate.edu/forms/>) and are to be returned to the health center.
